

# Key Civics and Government Concepts in the Book

*This book connects key civics, government, and history concepts taught in K-12 schools with critical media literacy activities for exploring them as part of classroom learning. Each activity includes short written introductions followed by outlines for how students and teachers can complete the activities, individually or in small groups along with links to resources and materials.*

The following chart connects key civics, government and history concepts taught in K-12 schools with critical media literacy activities for exploring them as part of classroom learning.

Key civics concepts in the book include democracy as a political system, a republic as a form of government, the Declaration of Independence, the Constitution, the Bill of Rights, the branches of U.S. government, elections and voting, political parties, citizenship, political leadership and courage, political protest, civil rights and social justice, political action committees, amendments to the Constitution, landmark Supreme Court decisions, functions of state and local government, freedom of the press, digital news and social media, and many more

Every learning activity is designed to promote creative self-expression and higher-order critical thinking among students about the ways that online and print media impact our lives as well as our nation's politics as well as their own roles as civically engaged members of local, state, national, and global communities.

## 1. Foundations of the U.S. Political System
